RICH EDRICK ANTHONIOS

+62-815-2255-5130 | richeanthonios@gmail.com | linkedin.com/in/richea | Portfolio

Fresh Graduate Information Systems student specializing in Data Science at President University, with practical experience in data analytics, business process automation, and digital transformation initiatives. Proficient in Business and Data Analytics, Web Development, SQL for building scalable data solutions and optimizing operational workflows. Experienced in transforming complex datasets into actionable insights, automating business processes, and developing technology-driven solutions that improve efficiency and support data-informed decision-making. Led a team of 2 developers to deliver Rossa, a mobile attendance management application for Mitra Keluarga, increasing attendance tracking efficiency by 90% through GPS validation, facial recognition, and real- time monitoring capabilities.

Education Level

President University - Cikarang, West Java — Sep 2023 - Dec 2026 (Expected)

Bachelor of Science, 3.91/4.00

- 3rd Winner Academic Writing competition held by TechX 2024
- Project Manager Comparative Study X UMN 2024
- Course Related: Advanced Database System, Accounting Information System, Business Process Analysis, Computer Network, Data Analytic & Visualization, Data Science Programming, Mobile Programming, Machine Learning, Web Application Development

Work Experiences

Schneider Electric - Jakarta — Mar 2026 - Present

Finance Intern

- Built & maintained excel template using VBA & dashboard for 3 divisions (national sales, secure power, power product), enhance visual and quick insight.
- Engineered an end-to-end global Tax Audit Tracker using VBA and Power BI, simplify managers to monitor 50+ audit cases across multiple countries and enabling real time oversight.
- Developed a Power BI EV Charging dashboard to track internal employees' usage, charging patterns, and utilization trends.
- Built a Google Apps Script-based sales dashboard covering 10+ Indonesian regions with interactive tooltips for real time performance monitoring.
- Designed & developed a 4-minute AI generated realistic video for CFO and Cluster President's presentation, condensing complex business updates into an exclusive level visual.

PT Jababeka Tbk - Cikarang, West Java — Aug 2025 - Feb 2026

Application Support Intern

- Supported internal Finance & Accounting System (ERP-like) by assisting staff in resolving operational and reporting issues.
- Created a vendor data validation app using fuzzy matching techniques (duplicate, similar, and unique checker), reducing manual checks by 90%.
- Performed functional & system testing, found 10+ functional bugs and flow discrepancies between design and implementation.
- Conducted internal web application testing using Telerik Test Studio to validate application functionality and stability.
- Improved SQL Server stored procedure performance by applying clustered indexing on temporary tables, reducing response time from 12 to 4 seconds.
- Developed an internal mobile application (Tripin) with OCR-based to automatically extract and process text data for internal driver operations.

Recent Projects

Superstore Analysis Dashboard 🔗 (2026)

- Analyzed 9000+ sales record to identify category, regional, segment, and product level performance using Power BI.
- Applied DAX measures to build 4 dynamic reports including profitability analysis, Y-1, etc.

Vendor Management & Data Validation 🔗 (2026)

- Built using Django, containerized with Docker, and managed database via Dbeaver (PostgreSQL).
- Implemented fuzzy string matching to classify vendor data into duplicate, similar, and unique records.
- Reduced manual validation process from 3–4 days to 1 day.

Amazon Sales Analysis Dashboard 🔗 (2025)

- Developed an interactive Power BI dashboard to analyze over 3.000 rows of amazon sales data from 2011 to 2014.
- Visualized key performance indicators including profit margins, order trends, etc.

Toko Mega Makmur Makassar 🔗 (2025)

- Developed Public website made with Wordpress and hosted using Hostinger to support business store.
- Ranked #1 on Google Search for the brand “Toko Mega Makmur Makassar” by implementing SEO Optimization and integrated Google Search Console.

Organizational Experiences

President University Major Association Information System (HIMA) Oct 2024 - Jul 2025

Head of Division Relation Management

- Led and mentored 5+ new members, improving their understanding of divisional operations and event coordination.
- Supervised 3+ internal and external events, including company visits, and farewell parties, ensuring smooth execution and positive feedback.

President University Major Association Information System (HIMA) Oct 2023 - Jul 2024

Member of Relation Management

- Collaborated with other student organization to organize company visits to BCA that involve over 60+ students and lecturers, improving networking in both business world and academic.
- Conducted a Comparative Study as Project Manager, resulting in a collaborative video that achieved 105k views on social media.

Technology & Skills

- **Data & Analytics**: Power BI, Tableau, Looker Studio, Databricks, Apache Spark, Excel VBA, Pandas, SAP
- **AI / ML**: Scikit-learn, TensorFlow, PyTorch, Langchain, RAG, Apache Airflow, Generative AI
- **Database**: SQL Server, Supabase, PostgreSQL, MySQL, MongoDB, Qdrant
- **Programming Language**: Python, Django, PHP, Laravel, React, JavaScript, Go, Flutter
- **Soft Skills**: Data-driven problem solving, time management, leadership, task planning, teamwork, analytical, advanced mental arithmetic
